Bob:

Just a FYI, from the CAG last night, a motion was passed unanimously for the CAG leadership to send a letter to the EPA R7 asking to the resignation of Karl Brooks. In the same letter they will be requesting an investigation into the handling of the West Lake project. You can guess the tenor of the meeting. There was no indication of the timeframe in which this will evolve. I have the Findett meeting at 11 - 2, and will be heading back after.

Todd and Tom did a very good job explaining the BMAC project. Good learning experience for them, especially for Tom.

Jeff
